Pratik More

Web Application Developer | Full Stack using PHP
Canada

Summary

An experienced developer with two years of experience in the Web
industry. I specialized in Front end web development, backend web
development using PHP language, and SEO management.

Developing Web applications, especially Landing pages, multiple
page web apps, POS systems (Dashboards to analyze business),
and E-commerce stores using Shopify, Magento, and WordPress for
small businesses.

Creating web apps using the latest tech such as ReactJS, NodeJS,
Vue JS, and Laravel. Interested in upcoming data analysis software,
looking forward to creating data analysis software for small
industries. Experienced in making an application that fetches
API from various sources such as Square Up database, Shopify
database, and gathering API and generating dashboard view as
required
to analyze the business.

Currently, learning various platforms to explore new tech such
as Power BI, Tableau and AWS to create Cloud-based PHP
applications that resolve the problem of storage in the future world.
Looking forward to developing cost-effective, scalable, and flexible.
Applications using PHP language and its frameworks.
